

Bookmarks

Bookmarks are navigational items that take you to a particular location within an Act. Often bookmarks are navigational tools used for finding headings, sections, schedules, etc. within a document.

All documents of this CD contain bookmarks.

The bookmark column appears on the left of the screen as shown in Figure 1.

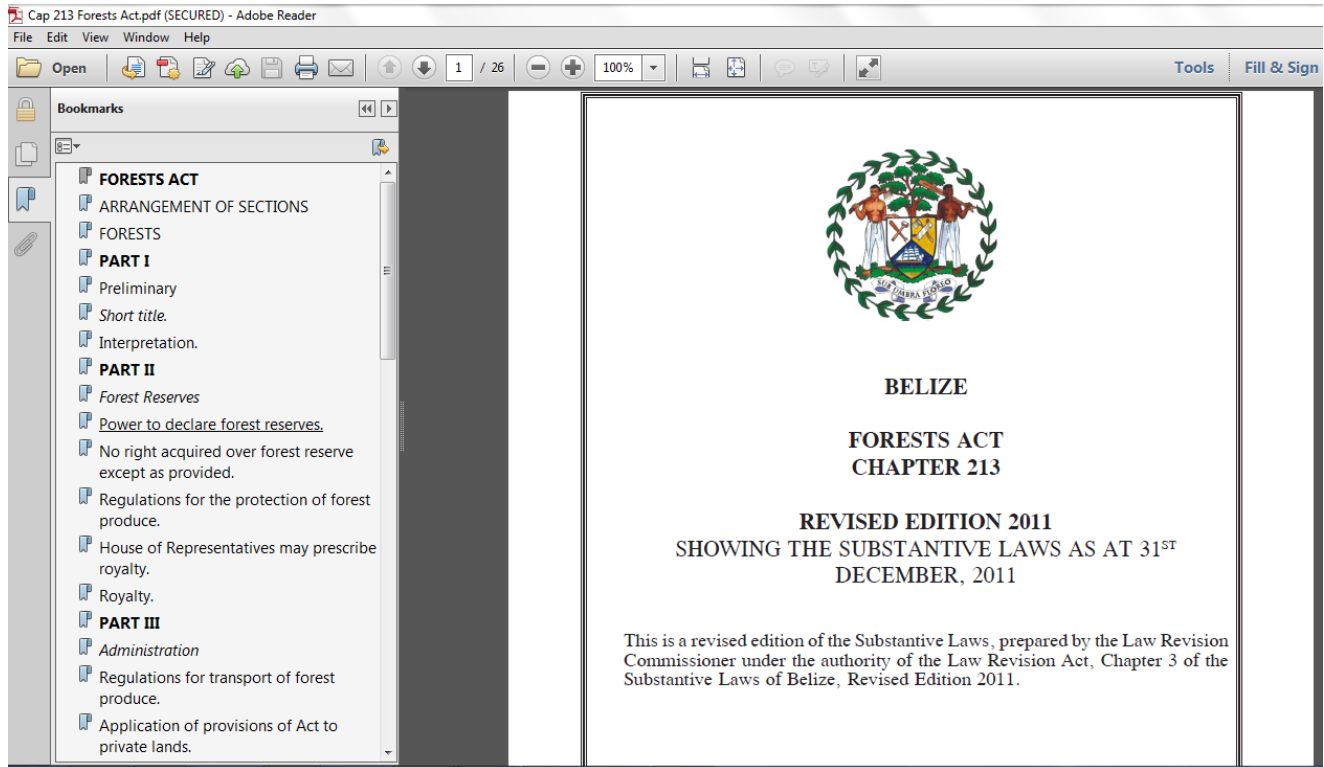

Figure 1

Click on any of the items listed in the Bookmarks column such as “Power to declare forest reserves” to view the related provision as shown in Figure 2 below.

Figure 2

All Section headings, Part headings, Division headings, Schedules, etc. are bookmarked.
